Contents of Volume XXVIII

NO. 1. JANUARY 1965

Responses of single units of the cat visual system to rectangular stimulus patterns. G. Baumgartner, J. L. Brown, and A. Schulz 1
Responses of single units in lateral geniculate nucleus of cat to moving visual patterns. W. Kozak, R. W. Rodieck, and P. O. Bishop 19
N. gracilis of cat. Functional organization and corticofugal effects. David L. Winter 48
Properties of motor units in a homogeneous red muscle (soleus) of the cat. Alexander M. McPhedran, Raymond B. Wuerker, and Elwood Henneman .. 71
Properties of motor units in a heterogeneous pale muscle (m. gastrocnemius) of the cat. Raymound B. Wuerker, Alexander M. McPhedran, and Elwood Henneman 85
Inhibition of nonspecific sensory activities following striopallidal and capsular stimulation. G. Krauthamer and Denise Albe-Fessard 100
Monosynaptic reflex and natural sleep in the cat. Kisou Kubota, Yoshiaki Iwamura, and Yosizumi Niimi 125
Electrophysiological and histological properties of the olfactory tract of the burbot (*Lota lota* L.). Kjell B. Döving and Gösta Gemne 139
Innervation of the fungiform papillae in the frog tongue. G. Rapuzzi and C. Casella 154
Intracellular activities and evoked potential changes during polarization of motor cortex. Dominick P. Purpura and James G. McMurtry 166
Announcement 186

NO. 2. MARCH 1965

Interhemispheric responses in the opossum. Louis R. Nelson and Richard A. Lende 189
Progressive changes in efferent unit responses to repeated cutaneous stimulation in spinal cats. Jennifer S. Buchwald, Edward S. Halas, and Sharon Schramm 200
Relation of discharge frequency to conduction velocity in pyramidal tract neurons. Edward V. Evarts 216
Receptive fields and functional architecture in two nonstriate visual areas (18 and 19) of the cat. David H. Hubel and Torsten N. Wiesel 229
Primary afferent depolarization and monosynaptic reflex depression following succinylcholine administration. Wesley A. Cook, Jr., Duncan R. Neilson, Jr., and John M. Brookhart 290
Somatic sensory representation of forelimb in dorsal root fibers of raccoon, coatimundi, and cat. Benjamin H. Pubols, Jr., W. I. Welker, and J. I. Johnson, Jr. 312
Cortical inhibitory postsynaptic potentials and strychninization. D. A. Pollen and C. Ajmone Marsan 342
Neural activity in mechanoreceptive cutaneous afferents: stimulus-response relations, Weber functions, and information transmission. Gerhard Werner and Vernon B. Mountcastle 359
Comparison of motor cortex influences upon various hind-limb motoneurons in pyramidal cats and primates. Kenichi Uemura and James B. Preston 398
Mechanisms of supraspinal actions upon spinal cord activities. Reticular inhibitory mechanisms upon flexor motoneurons. R. Llinas and C. A. Terzuolo 413
Obituary 423
Announcement 424

NO. 3. MAY 1965

Neuromuscular depression and the apparent depletion of transmitter in mammalian muscle. ROGER E. THIES 427

Sensory transmission in the geniculostriate system of the cat during natural sleep and arousal. NICOLA DAGNINO, EMILIO FAVALE, CARLO LOEB, AND MARIO MANFREDI 443

Effect of alkali-earth cations on frog spinal ganglion cell. S. NISHI, H. SOEDA, AND K. KOKETSU 457

Somatosensory loss in monkeys after ipsilateral cortical ablation. JOSEPHINE SEMMES AND MORTIMER MISHKIN 473

Intracellular study of internuclear inhibition in ventrolateral thalamic neurons. DOMINICK P. PURPURA, TIMOTHY SCARFF, AND JAMES G. MCMURTRY 487

Peripheral inhibition in skeletal muscle of insects. PETER N. R. USHERWOOD AND HARRY GRUNDFEST 497

Na and K content of glial cells and neurons determined by flame photometry in the central nervous system of the leech. JOHN G. NICHOLLS AND STEPHEN W. KUFFLER 519

Ion fluxes and transference numbers in squid axons. F. J. BRINDLEY, JR. AND L. J. MULLINS 526

Excitation of extensor motoneurons by group II afferent fibers in ipsilateral muscle nerves. VICTOR J. WILSON AND MASAMICHI KATO 545

Evidence that McIlwain's periphery effect is not a stray light artifact. W. R. LEVICK, C. W. OYSTER, AND D. L. DAVIS 555

Functional significance of cell size in spinal motoneurons. ELWOOD HENNEMAN, GEORGE SOMJEN, AND DAVID O. CARPENTER 560

Relations between structure and function in the design of skeletal muscles. ELWOOD HENNEMAN AND CAMILLE B. OLSON 581

Excitability and inhibitibility of motoneurons of different sizes. ELWOOD HENNEMAN, GEORGE SOMJEN, AND DAVID O. CARPENTER 599

NO. 4. JULY 1965

Conditioned reflexes elicited by electrical stimulation of the brain in macaques. ROBERT W. DOTY 623

Relationship between spontaneous and evoked unit activity in the inferior colliculus of rats. JAN BUREŠ AND OLGA BUREŠOVÁ 641

Responses of auditory cortical neurons to stimuli of changing frequency. I. C. WHITFIELD AND E. F. EVANS 655

Discrimination of tone duration after bilateral ablation of cortical auditory areas. DONALD P. SCHARLOCK, WILLIAM D. NEFF, AND NORMAN L. STROMINGER 673

Functional organization of tactile cutaneous afferents within the semilunar ganglion and trigeminal spinal tract of the cat. I. DARIAN-SMITH, PATRICIA MUTTON, AND ROBYN PROCTOR 682

Presynaptic component in the afferent inhibition observed within trigeminal brainstem nuclei of the cat. I. DARIAN-SMITH 695

Ionic mechanism associated with noncholinergic synaptic inhibition in molluscan neurons. H. M. GERSCHENFELD AND D. J. CHIARANDINI 710

Centrifugal modifications of discharge rates of primary and secondary endings of muscle spindles in the hind limb of the cat. TOSHINORI HONGO AND HIROSHI SHIMAZU 724

Sodium, potassium, and chloride concentrations and fluxes in the isolated giant axon of *Homarus*. F. J. BRINDLEY, JR. 742

NO. 5 SEPTEMBER 1965

Physiological properties of electroreceptors in the electric eel, *Electrophorus electricus*. S. HAGIWARA, T. SZABO, AND P. S. ENGER 775
Electroreceptor mechanisms in a high-frequency weakly electric fish, *Sternarchus albifrons*. S. HAGIWARA, T. SZABO, AND P. S. ENGER 784
Activity of central neurons involved in electroreception in some weakly electric fish (Gymnotidae). P. S. ENGER AND T. SZABO 800
Response of cat retinal ganglion cells to moving visual patterns. R. W. RODIECK AND J. STONE 819
Analysis of receptive fields of cat retinal ganglion cells. R. W. RODIECK AND J. STONE 833
Suppression of single unit activity in cochlear nucleus of the cat following sound stimulation. ARNOLD STARR 850
Excitatory and inhibitory response areas of auditory neurons in the cochlear nucleus. DONALD D. GREENWOOD AND NAOSHIGE MARUYAMA 863
Diffuse cortical activation waves during so-called desynchronized EEG patterns. J. CALVET, M. C. CALVET, AND J. M. LANGLOIS 893
Slow and fast groups of pyramidal tract cells and their respective membrane properties. KUNITARO TAKAHASHI 908
Properties of synaptic activities and spike potentials of neurons in immature neocortex. DOMINICK P. PURPURA, ROBERT J. SHOFER, AND TIMOTHY SCARFF 925
Recovery of muscle spindle activity in cats after cerebellar ablation. JOSEPH P. VAN DER MEULEN AND SID GILMAN 943
Responses of motoneurons of different sizes to graded stimulation of supraspinal centers of the brain. GEORGE SOMJEN, DAVID O. CARPENTER, AND ELWOOD HENNEMAN 958
Properties of touch receptors in distal glabrous skin of the monkey. U. LINDBLOM 966
Obituary 986

NO. 6. NOVEMBER 1965

Tonic and kinetic responses of cat's vestibular neurons to horizontal angular acceleration. HIROSHI SHIMAZU AND WOLFGANG PRECHT 991
Functional connections of tonic and kinetic vestibular neurons with primary vestibular afferents. WOLFGANG PRECHT AND HIROSHI SHIMAZU 1014
Comparison of the effects of unilateral and bilateral eye closure on cortical unit responses in kittens. TORSTEN N. WIESEL AND DAVID H. HUBEL 1029
Binocular interaction in striate cortex of kittens reared with artificial squint. DAVID H. HUBEL AND TORSTEN N. WIESEL 1041
Extent of recovery from the effects of visual deprivation in kittens. TORSTEN N. WIESEL AND DAVID H. HUBEL 1060
Rat retinal ganglion cells: receptive field organization and maintained activity. JOEL E. BROWN AND J. ARISTIDES ROJAS 1073
Dendritic fields of retinal ganglion cells of the rat. JOEL E. BROWN 1091
Unit analysis of visual input to posterior limbic cortex. I. Photic stimulation. MICHEL CUÉNOD, KENNETH L. CASEY, AND PAUL D. MACLEAN 1101
Unit analysis of visual input to posterior limbic cortex. II. Intracerebral stimuli. KENNETH L. CASEY, MICHEL CUÉNOD, AND PAUL D. MACLEAN 1118
Mesencephalic auditory region of the bullfrog. H. DAVID POTTER 1132
Patterns of acoustically evoked discharges of neurons in the mesencephalon of the bullfrog. H. DAVID POTTER 1155

Evoked potentials in auditory cortex after bilateral transection of the brachium of the inferior colliculus in the cat. PHILIP C. NIEDER AND NORMAN L. STROMINGER 1185
Projection of dorsal roots and sensory nerves to cortical sensory motor regions of squirrel monkey. A. J. BLOMQUIST AND C. AMBROGI LORENZINI 1195
Site of excitation in stimulation of the motor cortex. W. M. LANDAU, G. H. BISHOP, AND M. H. CLARE 1206
Neuronal convergence of noxious, acoustic, and visual stimuli in the visual cortex of the cat. K. MURATA, H. CRAMER, AND P. BACH-Y-RITA 1223
Index 1241
